

## CELT

01-006123

The Grom boots were specifically designed for the uniformed services. They are characterised by minimalism, simplicity and the highest quality, meeting even the most stringent requirements. The model presented can cope with almost any conditions. They are made from a combination of different materials and the specially placed seams make the featured military boots extremely durable and easy to care for. The upper layer is lined with grain leather that is resistant to mechanical damage. Inside there is a lining made of technological fabric with a membrane. The military boots offered are suitable for any terrain. They are available in sizes from 36-49 and weigh only 0.555 kg.

Brand	GROM
Industry	Security services / Convoy protection, Tactical
Product type	Shoes
Color	● Black
Norm	EN ISO 20347:2022
Certificate	092/2025/PPE/1439/B wyd. 1
Product features	metal free, disinfection
Product characteristics	<p>Increased abrasion resistance</p> <p>Required value according to the standard: <math>\leq 150 \text{ mm}^3</math></p> <p>Our result: <math>56 \text{ mm}^3</math></p> <p>Energy absorption in the heel area</p> <p>Required minimum according to the standard: <math>\geq 20 \text{ J}</math></p> <p>Our result: <math>40.2 \text{ J}</math></p> <p>Sole resistance to acids and alkalis</p> <p>Sole resistance to short-term contact with a hot surface at <math>180^\circ\text{C}</math></p> <p>The sole passes the SR slip-resistance test in accordance with the new EN ISO 20345:2022 standard</p>
Upper material	Grain leather
Lining & Sock	Fabric, antibacterial lining
Insole	Fabric, antibacterial insole, replaceable insole
Sole	Pu/Pu, sole tread allowing climbing the ladder safely, resistance to acids, resistance to bases, resistance to short-term contact with hot ground at $180^\circ\text{C}$ , SHOCK ABSORBER technology, SELF CLEAN technology (self-cleaning sole)
Fastener type	Shoelaces
Available sizes	FR 36-48 CM 23-31 UK 3,5-13
Weight (half pair s.42) +/- 3% t.	0,56 kg
