

GATOR

01-018689

The Gator high work boots are a model designed for special tasks. The footwear is made of full grain leather. It has a high upper that prevents injuries and a rubber sole that ensures high wearing comfort. The work boots are very easy to keep clean thanks to the easy-to-clean upper. The safety boots are designed for paramedics, firefighters and heavy industry. They are also perfect for car workshops or warehouses. The model is almost completely free of metal details and its weight is only 0.946 kg. The safety boots are available in sizes from 39 to 48.
